

SEND Consultancy:

"As someone who struggles with completing applications, meeting deadlines and communicating my thoughts into words I decided to instruct Ruth to help support me with the same. What transpired completely surpassed all expectations. With the utmost diligence, speed and attention to detail Ruth was effortlessly able to turnaround the workload and transform my thoughts into words to achieve a successful outcome. The service received was impressive, unparalleled and at all times I felt we were a team working towards a common goal. Ruth will now also be tutoring my children. I have no doubt whatsoever that she will deliver a bespoke curriculum that will cater for their individual SEN and which will not only play to their strengths and draw out the very best from them but also help them exceed their goals. Thank you, Ruth!"

English tuition:

"Our boys have found the lessons with Ruth really valuable and have commented that they have noticed the teaching has affected how confident they felt in their exams. The lessons we've had have been very much last-minute lessons in prep for GCSEs. Ruth seems to have a clear and direct approach and knows what they need to know to help them do better in their exams and keep the kids engaged. Thank you."
